CSEFEL Module Two
Infant and Toddler

Responsive Routines, Environments, and Targeted Strategies to Support Social Emotional Development in Infants and Toddlers
Activity: Getting to Know Each Other

• Write the numbers 3, 2, and 1 in vertical fashion on a piece of paper
• **Next to the 3** - list three personal qualities/characteristics that help you in your work with young children
• **Next to the 2** - list 2 things that you hope to share with others during today’s session
• **Next to the 1** - write one factor that contributed to your being here today
Learner Objectives

Participants will be able to:

• Discuss why it is important to pay attention to the social and emotional climate of infant and toddler settings.

• Describe the importance of caregiving routines and identify strategies for using them to support social emotional development
Learner Objectives

• Identify key ways the physical environment can promote social emotional development in infants and toddlers.

• Identify and implement targeted strategies to intentionally build social emotional skills in infants and toddlers.

• Support families in promoting routines, environments and targeted strategies that promote social emotional development of infants and toddlers.
Agenda

- Setting the Stage
- Social Emotional Climate in Infant Toddler Care Settings
- High Quality Supportive Environments
- Targeted Strategies to Build Social Emotional Skills
- Wrap-up, Reflection and Action Planning
Our Learning Environment

• What can the trainer do to facilitate a safe learning environment?
• How can other training participants help make the training environment conducive to your learning?
• What are some agreements we can make?
Possible Shared Agreements

• Confidentiality
• Take Care of Yourself and Others
• Demonstrate Respect
• Right to Pass and Take Risks
• Assume Positive Intent
• Recognize We Are All Learning
The Words We Will Use

• Terminology
  – Teaching and Supporting
  – Caregiving
  – Young Children, Infants, Toddlers, Preschoolers
  – Caregivers
  – Families
  – Others?
Support social emotional wellness in ALL infants and toddlers

Prevent the occurrence of or escalation of social emotional problems

Identify and work to remediate problems

When necessary refer children and families to appropriate service
The Pyramid Model: Promoting Social Emotional Competence in Infants and Young Children

Module 1: Social Emotional Development within the Context of Relationships

Module 2: Responsive Routines, Environments, and Strategies to Support Social Emotional Development in Infants and Toddlers

Assessment-based interventions result in individualized behavior support plans.
CSEFEL Definition of Social Emotional Development

The developing capacity of the child from birth through five…

• to form close and secure relationships;
• experience, regulate, and express emotions in socially and culturally appropriate ways; and
• explore the environment and learn;
• all in the context of family, community, and culture.

Adapted from ZERO TO THREE, 2001
Video 2.1 Promoting Social Emotional Development
Social Emotional Climate in Infant Toddler Care Settings

Key Considerations
Group Discussion: Child Care
In America
Handout 2.6
Activity: What Does Social Emotional Climate Mean to You?
Handout 2.7
Supporting the Social Emotional Needs of Infants and Toddlers

What are?

- Responsive care (individualized approaches)
- Primary caregiving
- Small groups and ratios
- Continuity of care
- Culturally responsive care

Why are they important to social emotional development?
Video 2.2 Continuity of Care and Social Emotional Development
Strategies to Promote Continuity of Care

• Child remains with caregiver as long as possible
• If child must change caregivers
  – Child visits new caregivers and space overtime
  – Child maintains relationships with previous teachers
  – Child visits with previous caregivers
High Quality Supportive Environments

Responsive Schedules and Routines
How Schedules and Routines Support Social Emotional Development

- They are an important part of each day
- They meet children’s basic needs
- They provide opportunities for learning and development
- They help develop a sense of security and control
- They provide predictability
- They support competence and confidence
Using Routines to Support Social Emotional Development

- Post picture or photo schedules
- Review and acknowledge when a toddler shows understanding of the routine
- Include children in routines
- Ask families about their routines at home
Activity: Handout 2.8
Responsive Routines
Inventory

Evaluating the Responsiveness of Your Routines and Schedules
Routines – Eating & Feeding
Routines – Diapering & Toilet Learning
Routines – Sleeping/Resting
Video 2.3 Routines in Routines
Strategies to Support Routines for Infants and Toddlers

- Use first/next or first/then words
- Display an item, such as a new toy, photo or plant, that children and families can explore together during arrival
- Sing or play lullabies
- Involve children in routines – for example, invite toddlers to help pass items to the next person during mealtimes
Video 2.4 Responsive Greetings
Strategies to Support Greetings and Goodbyes

• Designate a special arrival/goodbye area in the room
• Use family photos
• Allow and encourage transitional or comfort objects
• Develop rituals
• Games
• Books
Activity: Individual Considerations for Caregiving Routines

- On the left side of a piece of paper, write the names of two infants or toddlers you provide care for.
- Think about the temperament of these children and the characteristics that make them unique.
- Next to each child’s name, note some considerations for carrying out the various routines of the day with each young child.
High Quality Supportive Environments

Responsive Environments
Responsive Environments

Caregivers…

- offer what infants and toddlers see, touch, hear, smell, and taste.
- decide how much fresh air, sunlight, and exercise young children will get
- create engaging, supportive, and comfortable physical environments
Responsive Environments

Caregivers…

• choose appropriate toys, materials, and activities

• engage in reciprocal interactions

… all of which make up learning experiences for infants and toddlers
Group Discussion

• Why does the environment have such a powerful effect on our thoughts and feelings?

• What would it feel like if you didn’t have any control over the design of your home or apartment, or your sleeping/resting space?
Video 2.5 Responsive Environment
A Well-Designed Infant/Toddler Environment

Supports & encourages:
• social emotional needs
• responsive care from adults
• peer relationships

Is developmentally appropriate:
• age appropriate
• individually appropriate
• culturally appropriate
1. How does the environment support and encourage:
   • Social emotional needs?
   • Responsive care from adults?
   • Peer relationships?

2. How is it appropriate for infants & toddlers?

Environmental Elements to Consider

• Cozy/private spaces
• Climbing structures/ lofts
• Accessible materials
• Adjustable lighting
• Sound
• Color
• People

Targeted Strategies to Build Social Emotional Skills

Emotional Literacy
The Pyramid Model: Promoting Social Emotional Competence in Infants and Young Children

[Assessment-based interventions result in individualized behavior support plans.]

Module 2: Responsive Routines, Environments, and Strategies to Support Social Emotional Development in Infants and Toddlers
What is Emotional Literacy?

It is the capacity to:

• Identify, understand and express emotion in a healthy way
• Recognize, label, and understand feelings in self and others

Adapted with permission, Cradling Literacy, 2007
Strategies to Develop Emotional Literacy in Infants and Toddlers

1. Use the adult/child relationship to expand children’s awareness of emotions or feelings:
   • Verbally acknowledge and label emotions expressed by children in care
   • Assist infants and toddlers with regulating their emotions
   • Talk about the fact that feelings can change
   • Use questions about feelings to see if and how a child responds
Strategies to Develop Emotional Literacy in Infants and Toddlers

2. Find opportunities in the group setting to talk about feelings:
   - Stay close and support children when they experience difficulties with peers and need adult support to resolve them
   - Show positive feelings for both children in conflict
   - Let children know through your calm approach that conflict is to be expected and that it can be resolved with help
Strategies to Develop Emotional Literacy in Infants and Toddlers

3. Use enriching language tools:

- Choose books, music, finger plays with a rich vocabulary of feeling words
- Use puppetry or felt board stories that retell common social experiences and emphasize feeling vocabulary and conflict resolution
- Read stories about characters that children can identify with who express a range of feelings
Strategies to Develop Emotional Literacy in Infants and Toddlers

4. Model Positive Relationships
   • Between adults in the care setting
   • With other children
Activity: Emotional Literacy
Scenarios and Strategies
Video 2.6 Adult Supporting Children in Difficult Encounters
Discussion: Large Group

• What did this caregiver do to promote emotional literacy?

• What else could she do to develop these children’s emotional literacy skills?
Activity: Using Books to Support Social Emotional Skills

• Each person read at least three books
• Pick a book to share with the small group
• Talk about how you would use the book with the children you work with
• As a small group, make a list of the feeling words in the book or feeling words you would use to enhance the book for infants and toddlers.

</table>
Setting Up the Environment for Developing Play and Friendship Skills

- Evaluate the physical space to ensure that there is enough space for infants and adults to engage in social activities.
- Evaluate the physical environment for spaces for two or more children to enjoy side-by-side activity and for adults to be close for supervision.
- Evaluate the daily schedule for opportunities to develop play skills each day.
- Provide enough materials and equipment that allow and encourage two or more children to interact.
Promoting the Development of Friendship Skills

- Encourage toddlers to help each other and do routines together
- Provide positive verbal support for play between children
- Read books about friends, playing together, helping each other, etc.
- Practice turn-taking and sharing
Video 2.9 Promoting Friendship Skills
Activity
Handouts 2.14 & 2.15

• Choose a child in your care about whom you have concerns regarding the child’s social relationships with other children.
• Discuss the child’s strengths, temperament and developmental needs.
• Create strategies to target this child’s social skills development.
Wrap-up, Reflection and Action Planning
Reflection

• What questions do you have about the material we discussed?
• What insights, if any, do you have about your own practices, the children, and/or their families?
• What strategies did you see or hear that might be useful in your role and work?
Activity: Planning for Change
Handout 2.16

- Use the handout to develop an action plan for yourself
- List three things you will do as you consider ways design high quality supportive environments and create targeted strategies to support social emotional development
Major Messages to Take Home

• Supporting social emotional skills requires intention

• Caregiving routines are primary opportunity to enhance social emotional development

• The physical environment, particularly in group care, plays a major role.

• Social emotional literacy is a prerequisite to more advanced social skills and for the continued maturation of emotional self-regulation.
